

New York Tribune

Coverage: 1841–1922

To experience the struggles of an emerging nation, start here.

Horace Greeley, founder of the *New York Tribune*, was arguably one of the most colorful and powerful publishers of his time. His editorials influenced the abolishment of slavery, plagued presidents and politicians, and encouraged the settlement of the West. His newspaper featured revolutionary thinkers such as Margaret Fuller, Karl Marx, and Friedrich Engels. Reform-minded Greeley, whose newspaper had a circulation of more than a quarter of a million by the 1860s, helped form the Republican Party and ran for president in 1872.

Focus on research instead of the mechanics of finding data.

ProQuest makes it easy for both novice researchers and information professionals to find relevant information quickly, with basic and advanced search options. Searches can be confined to specific article types and dates to focus on the most relevant information. Each newspaper page is zoned into article images, and each newspaper image is supported with searchable ASCII text. Combined, these features mean faster, more effective searches for users. ProQuest digitizes documents at the highest possible resolution to deliver clean, readable images, and highlights search terms to focus readers on the most relevant content.

Researchers can sort their results by oldest, most recent, or most relevant. In addition, stories that originally spanned multiple pages of a newspaper are “threaded” together, appearing as one continuous image and improving readability. Users can view and easily download articles, front pages, photos, display ads, and more in PDF format. The “My Research” summary feature can be used to track recent searches, save articles, email documents, create a bibliography, export citations, and create Web pages.

Your single source for centuries of continuous historical news coverage.
